INHS ASVINI

PREVENTIVE ONCOLOGY UNIT

"An ounce of prevention is worth a pound of cure."
— Benjamin Franklin

**A new Preventive Oncology Unit
has been opened at Oncology OPD Complex
on Ground Floor at INHS Asvini**

Preventive Oncology is a discipline that focus on key measures that can prevent cancer development or detect the disease at an early stage or delay the progression of the disease process. The goal of the unit is to provide comprehensive preventive oncology services viz consultation, screening and advice on various measures to prevent occurrence of cancers.

Few focus areas of the unit are:

- (a) Breast Cancer
- (b) Cervical Cancer
- (c) Lung Cancer
- (d) Oropharyngeal Cancer
- (e) Prostate Cancer
- (f) Stomach or Bowel Cancer

Yesterday is gone, tomorrow has not yet come. We have only today, let us begin."
- Mother Teresa
